

# COSHH PLANNER

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
1. Lightening (bleach) powder, emulsion, granules or paste		 Irritant & Inhalation (Dusty products)	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Avoid inhalation of dry powder and contact with eyes and face.</li> <li>• Do not use on damaged skin.</li> <li>• Store in a cool, dry place away from direct sunlight and heat source.</li> <li>• Reseal container after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid mixing with reducing agents i.e. perm lotions.</li> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> <li>• Do not use on paper or wood.</li> </ul>	<ul style="list-style-type: none"> <li>• Clean up spilled powder</li> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Dry powder: wash down the drain with plenty of water</li> <li>• Do not burn</li> </ul>
2. Hydrogen Peroxide Solutions – up to 40% volume or 12%  Neutraliser : As per Hydrogen Peroxide Solutions		 Irritant skin and eyes	 Do not use on damaged or sensitive skin.  Avoid contact eyes and face	<ul style="list-style-type: none"> <li>• Use non-metallic utensils.</li> <li>• Ensure no contact with easily combustible materials (paper)</li> <li>• Store in a cool, dry place away from direct sunlight and heat source.</li> <li>• Store in container provided</li> <li>• Replace cap after use</li> <li>• Store securely and prevent unauthorised use.</li> </ul>	<ul style="list-style-type: none"> <li>• Use non-metallic utensils.</li> <li>• Do not mix with other chemicals other than recognised formulations as can be explosive.</li> <li>• Do not allow to dry on paper, hair or wood as combustion may occur</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> <li>• Do not burn</li> </ul>
3. Perm and straightening products – alkaline type  Neutraliser : As per Hydrogen Peroxide Solutions		 Irritant skin and eyes on prolonged contact	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Avoid contact with eyes and face.</li> <li>• Do not use on damaged/sensitive skin.</li> <li>• Store in a cool, dry place away from direct sunlight and heat source.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid mixing with oxidising agents such as hydrogen peroxide or bleach powder, except as specified in usage instructions</li> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> </ul>
4. Perm – exothermic type  Perm Activator: As per Hydrogen Peroxide Solutions Neutraliser : As per Hydrogen Peroxide Solutions		 Irritant skin and eyes	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Avoid contact with eyes and face.</li> <li>• Do not use on damaged/sensitive skin.</li> <li>• Store in a cool, dry place away from direct sunlight and heat source.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid mixing with oxidising agents such as hydrogen peroxide or bleach powder, except as specified in usage instructions</li> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> </ul>

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
5. Perm – acid type Neutraliser : As per Hydrogen Peroxide Solutions		 Irritant skin and eyes. Skin contact can cause an allergic reaction	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Avoid contact with eyes and face.</li> <li>• Do not use on damaged/sensitive skin.</li> <li>• Store in a cool, dry place away from direct sunlight and heat sources.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid mixing with oxidising agents such as hydrogen peroxide or bleach powder, except as specified in usage instructions</li> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> <li>• Do not burn</li> </ul>
6. Perm – cysteamine HCl type Perm Activator: As per Hydrogen Peroxide Solutions Neutraliser : As per Hydrogen Peroxide Solutions		 Irritant skin and eyes.	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Avoid contact with eyes and face.</li> <li>• Do not use on damaged/sensitive skin.</li> <li>• Store in a cool, dry place away from direct sunlight and heat sources.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Avoid mixing with oxidising agents such as hydrogen peroxide or bleach powder, except as specified in usage instructions</li> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> </ul>
7. Relaxer		 Irritant skin and eyes. Can cause blindness	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Follow directions to avoid skin and scalp burns, hair loss and eye injury</li> <li>• Store in a cool, dry place away from direct sunlight and heat source.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Follow directions to avoid skin and scalp burns, hair loss and eye injury</li> </ul>	<ul style="list-style-type: none"> <li>• Wipe spillages with disposable cloth</li> <li>• Wash area well with detergent to prevent slippery residue</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> </ul>
8. Hair colorant – oxidative: a) Non-aerosol  Developer: As per Hydrogen Peroxide Solutions		 Irritant skin and eyes. Can cause allergic reaction.   Liquid products may be flammable.	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>• Liquid products may contain alcohol = flammable; keep small quantities in the salon for immediate use</li> <li>• Store in a cool, dry place</li> <li>• Keep liquid products away from direct sunlight and heat source.</li> <li>• Replace cap after use.</li> </ul>	<ul style="list-style-type: none"> <li>• Skin allergy test as per manufacturer</li> <li>• Do not use product if client experienced previous reaction/scalp sensitive or itchy or skin damaged</li> <li>• Unexpected reaction; stinging, burning, rash during application rinse immediately with lukewarm water and discontinue use.</li> <li>• Advise client to seek and follow medical advice</li> <li>• Mixture must not come into contact with eyes, face or surrounding area</li> <li>• Do not use to dye eyelashes or eyebrows</li> </ul>	<ul style="list-style-type: none"> <li>• Dilute with plenty of water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>• Wash down the drain with plenty of water</li> <li>• Do not burn</li> </ul>

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
					<ul style="list-style-type: none"> <li>Use away from sources of ignition</li> <li>After mixing with peroxide use immediately. Unused liquid product disposed of on completion of colour treatment</li> </ul>		
<p>8. Hair colorant – oxidative: b) Aerosol</p> <p>Developer: As per Hydrogen Peroxide Solutions</p>		 Irritant skin and eyes. Can cause allergic reaction.   Pressurised container. High risk of explosion in a fire. In case of fire; evacuate areas containing aerosols and inform fire fighters of their presence	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>Store away from direct sunlight and heat source.</li> <li>Do not place in display windows exposed to the sun</li> <li>Do not expose to temperatures over 50°C</li> <li>Store containers in a cool dry place, preferably in 30mins fire resisting cupboard</li> </ul>	<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>Keep away from sources of heat and do not expose to temperatures over 50°C</li> <li>Do not warm aerosols to ease removal of contents</li> <li>Do not tamper with the valve or actuator in case of malfunction</li> <li>Keep cap in place when not in use</li> <li>Follow usage as per 8a hair colorant above</li> <li>Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>		<ul style="list-style-type: none"> <li>Do not pierce or burn aerosol container, even after use</li> </ul>
<p>9. Colour Remover (See precautions for powder bleaching and Hydrogen Peroxide solutions , if relevant)</p>		 Irritant. Can cause allergic reaction. Inhalation (powder only)	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>Avoid inhalation and contact with eyes and face</li> <li>Do not use on damaged/sensitive skin.</li> <li>Use non-metallic utensils.</li> <li>Store in a cool, dry place away from direct sunlight and heat source.</li> <li>Reseal container after use.</li> </ul>	<ul style="list-style-type: none"> <li>Use non-metallic utensils.</li> <li>Hydrogen peroxide may react with other chemicals to form dangerous, even explosive materials.</li> <li>Avoid mixtures other than recognised formulations</li> <li>Do not allow to dry on paper, hair or wood as combustion may occur</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with plenty of water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Unwanted or contaminated material wash down the drain with plenty of water</li> <li>Do not burn</li> </ul>
<p>10. Hair Colourant – direct dye– non oxidative a) Non-aerosol</p>		 Irritant. Can cause allergic reaction. Refer to manufacturers pack for declarable colorants which may require a skin allergy test before use.	 Adequate ventilation when mixing and applying	<ul style="list-style-type: none"> <li>Avoid contact with eyes and face.</li> <li>Do not use on damaged/sensitive skin.</li> <li>Store in a cool, dry place away from direct sunlight and heat sources.</li> <li>Use away from sources of ignition</li> <li>Liquid products may contain alcohol = flammable; keep small quantities in the salon for immediate use</li> </ul>	<ul style="list-style-type: none"> <li>Skin allergy test if required by the manufacturer</li> <li>Do not use on damaged skin</li> <li>Lotion must not come into contact with eyes, face or surrounding area</li> <li>Use away from sources of ignition</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with plenty of water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Wash down the drain with plenty of water</li> <li>Do not burn</li> </ul>

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
		 <p>Liquid products may be flammable. Use a carbon dioxide or powder extinguisher</p>					
10. Hair Colourant – direct dye– non oxidative b) Aerosol		 <p>Irritant. Can cause allergic reaction. Refer to manufacturers pack for declarable colorants which may require a skin allergy test before use.</p>   <p>Pressurised container. High risk of explosion in a fire. In case of fire; evacuate areas containing aerosols and inform fire fighters of their presence</p>		<ul style="list-style-type: none"> <li>• Store away from direct sunlight and heat source.</li> <li>• Do not place in display windows exposed to the sun</li> <li>• Do not expose to temperatures over 50°C</li> <li>• Store containers in a cool dry place, preferably in 30mins fire resisting cupboard</li> </ul>	<ul style="list-style-type: none"> <li>• Keep away from eyes</li> <li>• Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>• Keep away from sources of heat and do not expose to temperatures over 50°C</li> <li>• Do not warm aerosols to ease removal of contents</li> <li>• Do not tamper with the valve or actuator in case of malfunction</li> <li>• Keep cap in place when not is use</li> </ul> <p>Follow usage as per 10a hair colorant direct dye– non oxidative Non-aerosol above</p> <ul style="list-style-type: none"> <li>• Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>		<ul style="list-style-type: none"> <li>• Do not pierce or burn aerosol container, even after use</li> </ul>
11. Hairspray: a) Non-aerosol		  <p>Inhalation Use a carbon dioxide or powder extinguisher</p>	Adequate ventilation when applying	<ul style="list-style-type: none"> <li>• Avoid contact with eyes and face.</li> <li>• Do not use on damaged/sensitive skin.</li> <li>• Keep away from sources of ignition</li> <li>• Keep small quantities in the salon or immediate use only</li> <li>• Store containers in a cool dry place, preferably in 30mins fire resisting cupboard</li> </ul>	<ul style="list-style-type: none"> <li>• Apply in a well ventilated area</li> <li>• Avoid excessive inhalation of spray</li> <li>• Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>• Keep away from sources of ignition</li> </ul>	<ul style="list-style-type: none"> <li>• Wipe spillages with a disposable cloth.</li> <li>• Wash area well with detergent solution to prevent sticky residues.</li> </ul>	<ul style="list-style-type: none"> <li>• Do not burn</li> </ul>
11. Hairspray: b) Aerosol		 <p>Inhalation</p>  	Adequate ventilation when applying	<ul style="list-style-type: none"> <li>• Store away from direct sunlight and heat sources.</li> <li>• Do not place in display windows exposed to the sun</li> <li>• Do not expose to temperatures over</li> </ul>	<ul style="list-style-type: none"> <li>• Keep away from eyes</li> <li>• Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>• Keep away from sources of heat and do</li> </ul>		<ul style="list-style-type: none"> <li>• Do not pierce or burn aerosol container,</li> </ul>

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
		Pressurised container. High risk of explosion in a fire. In case of fire; evacuate areas containing aerosols and inform fire fighters of their presence		50°C <ul style="list-style-type: none"> <li>Store containers in a cool dry place, preferably in 30mins fire resisting cupboard</li> </ul>	not expose to temperatures over 50°C <ul style="list-style-type: none"> <li>Do not warm aerosols to ease removal of contents</li> <li>Do not tamper with the valve or actuator in case of malfunction</li> <li>Keep cap in place when not is use</li> <li>Follow usage as per 11a hair spray inc. treatment sprays</li> </ul> Non-aerosol above <ul style="list-style-type: none"> <li>Adequate ventilation, preferably extraction, when mixing and apply in a well ventilated area</li> </ul>		even after use
12. Setting lotion and hair tonic – including coloured setting lotion and blow dry lotion		 Use a carbon dioxide or powder extinguisher		<ul style="list-style-type: none"> <li>Store containers in a cool dry place, away from direct sunlight and heat sources</li> <li>Keep away from sources of ignition</li> <li>Keep small quantities in the salon or immediate use only</li> </ul>	<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Keep away from damaged or sensitive skin</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Do not burn</li> </ul>
13. Styling mousse/foam – including setting/conditioning mousse: a) Non-aerosol		 Use a carbon dioxide or powder extinguisher		<ul style="list-style-type: none"> <li>Store containers in a cool dry place, away from direct sunlight and heat sources</li> </ul> Preferably in a 30 mins fire resisting cupboard	<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Do not burn</li> </ul>
13. Styling mousse/foam – including setting/conditioning mousse: b) Aerosol		 Extremely flammable except for carbon dioxide propelled mousses. Pressurised container. High risk of explosion in a fire. In case of fire; evacuate areas containing aerosols and inform fire fighters of their presence	Adequate ventilation when applying		<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>Keep away from sources of heat and do not expose to temperatures over 50°C</li> <li>Do not warm aerosols to ease removal of contents</li> <li>Do not tamper with the valve or actuator in case of malfunction</li> <li>Keep cap in place when not is use</li> <li>Follow usage as per 13a styling mousse/foam</li> </ul> Non-aerosol above <ul style="list-style-type: none"> <li>Adequate ventilation apply in a well ventilated area</li> </ul>		<ul style="list-style-type: none"> <li>Do not pierce or burn aerosol container, even after use</li> </ul>

Product	Brand	Hazards	Exposure controls and PPE	Handling & Storage	Usage	Accidental Release	Disposal
14. Hair Styling gel		 May be flammable. Use a carbon dioxide or powder extinguisher		<ul style="list-style-type: none"> <li>Store containers in a cool dry place, away from direct sunlight and heat sources</li> <li>Keep away from sources of ignition</li> <li>Keep small quantities in the salon or immediate use only</li> </ul>	<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Keep away from damaged or sensitive skin</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Do not burn</li> </ul>
15. Glazes: a) Non-aerosol		 May be flammable. Use a carbon dioxide or powder extinguisher		<ul style="list-style-type: none"> <li>Store containers in a cool dry place, away from direct sunlight and heat sources</li> <li>Keep away from sources of ignition</li> <li>Keep small quantities in the salon or immediate use only Preferably in a 30 mins fire resisting cupboard</li> </ul>	<ul style="list-style-type: none"> <li>Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>Keep away from sources of ignition</li> </ul>	<ul style="list-style-type: none"> <li>Dilute with water and mop up spillages</li> </ul>	<ul style="list-style-type: none"> <li>Do not burn</li> </ul>
15. Glazes: b) Aerosol		 Extremely flammable Pressurised container. High risk of explosion in a fire. In case of fire; evacuate areas containing aerosols and inform fire fighters of their presence	Adequate ventilation when applying	<ul style="list-style-type: none"> <li>Store containers in a cool dry place, away from direct sunlight and heat sources</li> <li>Keep away from sources of ignition</li> </ul> Keep small quantities in the salon or immediate use only Preferably in a 30 mins fire resisting cupboard	<ul style="list-style-type: none"> <li>Keep away from eyes</li> <li>Do not spray on a naked flame/incandescent material/near infra red map hairdryers</li> <li>Keep away from sources of heat and do not expose to temperatures over 50°C</li> <li>Do not warm aerosols to ease removal of contents</li> <li>Do not tamper with the valve or actuator in case of malfunction</li> <li>Keep cap in place when not in use</li> <li>Follow usage as per 15a Glazes Non-aerosol above</li> <li>Adequate ventilation apply in a well ventilated area</li> </ul>		<ul style="list-style-type: none"> <li>Do not pierce or burn aerosol container, even after use</li> </ul>

Chemical Symbols	Old	New	Hazard statements for labels	Precautionary statements for labels
Irritant/sensitisation			<b>Example:</b> H240 - Heating may cause an explosion	<b>Example:</b> P102 - Keep out of reach of children P271 - Use only outdoors or in well-ventilated area P410 - Protect from sunlight
Flammable/ Extremely Flammable			H320 - Causes eye irritation	
Environmental			H401 - Toxic to aquatic life	
Toxic				

Contains gas under pressure				
Longer term health hazards				
Corrosive
